Condition Policy. There were 5 adult dogs (Cane Corso) and 8 pupples present on the date of inspection. Dogs are identified by microchip or collars. All dogs appeared healthy and in good weight. Litter records are accurate and up-to-date. Ownership records need to printed out from the breeder's on-line record keeping account. The breeder has an indoor kennel in his base with access to a very large fenced back yard. Breeder has been briefed and given a copy of AKC Rules.
